INTRODUCTION/DISCLAIMERS

INTRODUCTION

Mohawk Finishing Products is the leading manufacturer and distributor of professional wood and leather touch-up, repair and finishing products. Mohawk offers the highest quality wood coatings and finishing products, furniture polishes and cleaners, and touch-up and repair products in the industry.

With our modern laboratory facilities, we are in a position to formulate and furnish you with almost any desired item and any special shade or color. We are always ready to help with whatever finishing, patching or repairing difficulties you have.

Mohawk believes in the wood and leather touch-up and repair professional and we dedicate our efforts to supporting them in their craft. Mohawk provides more products and services to help all businesses from small to large with their finishing and repair projects than anyone in the industry. We're here to help businesses like yours provide clients with the best wood, leather and vinyl touch-up products.

Professional finishers recognize and depend on Mohawk for a wide variety of quality products that are accompanied by our personal support. Our repair products and stains serve as the benchmark in color selection and performance. Our products will help you consistently achieve professional results.

Based in Hickory, North Carolina, Mohawk Finishing Products offers its top quality wood coatings and finishing products across the country and around the world through respected distributors, or you can order direct or on-line through our product catalog.

Loss or damage arising from the use of our products whether used alone or in combination with our products is the responsibility of the user. **MOHAWK FINISHING PRODUCTS MAKES NO WARRANTIES, EXPRESS OR IMPLIED, AND DISCLAIMS ALL IMPLIED WARRANTIES INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR FREEDOM FROM PATENT INFRINGEMENT. MOHAWK FINISHING PRODUCTS WILL NOT BE LIABLE FOR ANY SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES.** Your only remedy for any defect is the replacement of the defective product, or a refund of its purchase price, at our option. The information on our Product Data sheet, catalogs and sell sheets, as well as the products referenced herein, shall be considered "Confidential Information". Wet samples and uncured samples of these products shall be maintained as confidential and shall not be disclosed to any third party without the prior written permission of Mohawk Finishing Products.

PAINTED FINISH DISCLAIMER

Opaque or painted finishes have unique differences from other wood finishes. When paints are applied to wood products composed of several different pieces of wood, expansion and contraction of the wood can cause cracks in the finish where the wood pieces join together. There are several areas on the cabinets where these cracks will occur. Doors may develop cracks in the finish on door joints and seams on glued-up door panels. Stile and rail face frames may develop cracks on glue joints where horizontal pieces meet vertical pieces. Mitered style doors are very prone to develop cracks or breaks in the finish on mitered joints. Mohawk Finishing Products cannot insure painted product will not react to these normally occurring circumstances and will not prevent cracking due to excessive substrate movement. These characteristics are normal and will not be considered for product replacement or warranty.

EFFECTS OF HUMIDITY

Wood will naturally respond to changes in humidity and the expansion and contraction can be dramatic. Wood and wood veneer substrates can shrink or expand when changing between cold, dry conditions to warm, humid conditions. This potential movement makes it very important to control the humidity levels in the environment where finishes and finished projects will be applied, stored or used. Cracks that originate at the joints are part of the natural process of solid wood movement and therefore are not considered a coating defect.

No Minimum Order Volume

Shipping and Handling (Continental U.S. only):

All regular ground shipments, or (truck) shipments, will be covered by the following freight program.

ORDER VOLUME	SHIPPING AND HANDLING CHARGES
Under \$85.00	Actual Freight, \$10.00 Handling & Applicable Hazmat
\$85.00 - \$699.99	Actual Freight & Applicable Hazmat
\$700 and up	Freight Free
Collect/Third Party Bill	\$10.00 Handling Fee

Free Freight does not include any additional carrier accessorial charges, i.e. lift gate, redelivery fees, or residential fees.

All overnight and air shipments will incur actual freight and handling charges with any and all applicable HAZMAT charges. All orders shipped Collect, or Consignee Billing will be subject to a \$10.00 handling charge.

Shipping and Handling (Alaska & Hawaii):

Free freight is paid to the freight forwarder within the Continental U.S. on orders of \$700.00 and up. Orders below \$700.00 will be charged per the table above. The customer pays charges from the forwarder to their destination. **All overnight and air shipments will incur actual freight and handling charges with any and all applicable HAZMAT charges.**

Note: Custom product orders require additional production time. Therefore, custom orders will be processed separate from stock orders and are subject to the above freight policy.

Backorder Policy:

Back ordered items will be shipped as soon as possible unless order states "Do not backorder".

Shortage:

Claims of shortage of materials or products must be reported within 10 business days of receipt of the order. Any deduction without authorization will not be allowed and will be carried as a balance due.

Damaged Goods:

Once received, we ask that you promptly inspect your order. Any damages to the cartons or packaging of your order that are visible upon receipt should be noted on the carrier's paperwork when signing for the delivery. All claims of visible and/or concealed damage (within the cartons) should be reported to Mohawk Finishing Products within 10 business days.

Return Procedures:

We make every effort to accurately ship your orders and commit to quickly correcting any error that may occur. All customer service issues are handled by the Customer Service Department.

1. Please notify our Customer Service Department of any questions. Our customer service representatives will do everything possible to satisfy your needs.
2. In order to answer your questions and serve you better, please have a copy of your packing slip and/or invoice when you call.
3. If a return is necessary, the Customer Service Department will provide you a return material authorization (RMA) number. This number must be marked on 2 sides of the carton(s) to be returned. Any merchandise returned without an RMA number marked on the carton(s) will be refused. Product being returned must be shipped via UPS or FEDEX. The warehouse cannot accept anything sent via US mail.
4. We must be notified of any shipping error within 10 business days. We cannot accept returned products under any circumstances after 60 days. All returns are subject to inspection.
5. All returns are subject to a 25% restocking fee and return freight charges with the exception of defective product or Mohawk shipping error.

Limited Warranty:

Mohawk Finishing Products shall not be liable for any injury, loss or damage arising out of the use or inability to use any item sold by us. Our only obligation in lieu of all warranties expressed or implied is to replace any item proved to be defective. The user must determine the suitability of the product for its intended use, and assumes all risk in connection therewith.

OUR MISSION STATEMENT

"Mohawk's policy is to consistently provide products and services at a level of quality that meets or exceeds the expectations of our customers."

We expect to be the standard of quality for our industry.

CLEAR

Perfect Blend® Lacquer

A premium blended nitrocellulose lacquer displaying excellent adhesion over waxed and polished surfaces and areas contaminated with silicone. Perfect Blend® features a soft spray, low film build, and fine atomization resulting in virtually no overspray, little bounce, excellent flow, and strong ability to blend in with the surrounding surface. Net Wt. 13.5 oz.

⚠️ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M102-0705	Dead Flat	5-8 Sheen
M102-0710	Flat	10-13 Sheen
M102-0720	Matte	19-23 Sheen
M102-0740	Satin	35-40 Sheen
M102-0760	Semi-Gloss	55-65 Sheen
M102-0780	Gloss	80 Sheen

Perfect Blend® Waterborne Lacquer

A premium blended water-based acrylic lacquer featuring fast dry and very low odor that is HAPS free. It displays excellent adhesion over waxed and polished surfaces and areas contaminated with silicone. Perfect Blend® Waterborne features a soft spray, low film build, and fine atomization resulting in virtually no overspray, little bounce, good flow, and a strong ability to blend in with the surrounding surface. Ideal for touch-up use where odor may be an issue, especially restaurants, offices, homes and hotels. Net Wt. 13.5 oz.

⚠️ WARNING: Cancer - www.P65Warnings.ca.gov. Applies to product(s) below.

M102-0414	Dead Flat

High Solids Pre-Catalyzed Clears

A high solids pre-catalyzed aerosol lacquer with the durability and adhesion of our traditional pre-cat aerosol that eliminates the need to mix bulk finishes for your small refinishing and restoration jobs. Net Wt. 13 oz.

- High solids, fast build
- Superior flow out
- Outstanding adhesion
- Excellent durability

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M102-0320	Matte
M102-0335	Satin

Finisher's Choice™ Clears

A high solids aerosol lacquer that eliminates the need to mix bulk finishes for your small refinishing and restoration jobs. Net Wt. 13 oz.

- Higher solids, fast build
- Outstanding atomization
- Excellent blush resistance
- Superior flow out

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M102-0540	Gloss
M102-0541	Satin
M102-0542	Flat
M102-0543	Sanding Sealer

C.A.B. Production Topcoat - Clears

High solids, fast-building, water clear finish. Excellent flow, fast drying and blush resistant. The best choice for use over whites and light color furniture.

Net Wt. 13 oz.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M102-0480	Gloss
M102-0482	Satin

Final Finish™

A non-yellowing, C.A.B./Acrylic finish. This quick drying, blush resistant finish works equally well for production or in-shop touch up and repair of most modern finishes.

Net Wt. 13 oz.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M102-0490	Gloss
M102-0492	Satin
M102-0493	Matte
M102-0494	Flat

Smooth Coat Lacquer

Spray a soft, silky, hand rubbed effect right out of the can. The slightly amber tone of Smooth Coat gives a rich patina as a clear natural topcoat finish and adds a beautiful richness to dyed or stained woods. Smooth Coat features quick dry, quick build, with exceptional flow-out and leveling.

- Perfect topcoat for interior furniture, small craft, carvings, antiques and architectural millwork
- Faster build (15.1% solids by volume, comparable to a spray gun.)
- Conventional VOC formulation aerosol - Net Wt. 13 oz.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M103-030	Satin
----------	-------

Clear Spray Shellac

A clear coating for furniture, floors, inside drawers and food cabinets. Shellac has unusually good adhesion to hard-to-grip surfaces. Hold out is exceptional on wood, plywood, and plaster. Recommended for spot sealing knot holes, sap streaks, and refilled areas before refinishing. Can also be used as a barrier coat over a silicone-contaminated area. Net Wt. 12 oz.

M102-0475

Flat Oil Finish

Designed for oil-walnut and teak finishes. Spray over spot repairs to reduce gloss so as to blend in with the sheen of the surrounding finish. Can be used to produce a simulated oil finish over a previously stained surface. Net Wt. 13 oz.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M102-0424

Outdoor Acrylic Aerosol

The Outdoor Acrylic Aerosol is made with high quality non-yellowing acrylic resins. This aerosol was formulated to adhere to wood, metal, powder coating, plastic and other materials. The perfect choice for all your outdoor projects.

- Superior flow out and blending
- Great clarity and durability
- Excellent atomization
- Excellent adhesion

M102-0910	Flat
M102-0940	Satin
M102-0980	Gloss

CLEAR

High Performance Clear Acrylic Aerosol

The High Performance Clear Acrylic Aerosol is made with high quality non-yellowing acrylic resins. This aerosol was formulated to adhere wood, metal, powder coating, catalyzed coatings and other materials. The perfect choice for all your indoor and outdoor projects.

- Superior flow out and blending
- Great clarity and durability
- Non-yellowing
- Excellent atomization
- Excellent adhesion

M102-0080	Gloss

TONERS

Ultra® Classic Toner

Dye-based transparency with highest rating of light-fastness available for dyes.

- Excellent flow out, no overspray
- Mar and alcohol resistant

Solve flow-out problems associated with aerosol lacquer touch-up! Ultra® Classic Toners utilize a non-fading, non-bleeding dye to provide excellent clarity. Wood shades can be varied without imparting the “muddy” effect sometimes associated with pigment type toners. *Custom color matching available.* Net Wt. 13 oz.

- M102-0543

E-Z Vinyl® Sealer

E-Z Vinyl® Sealer aerosol is the perfect choice for spot repairs on kitchen cabinetry, furniture or millwork where improved durability, moisture resistance, and adhesion are critical.

E-Z Vinyl® Sealer aerosol is a water clear, quick build sealer specifically designed for surface preparation under mid to higher sheen finishes. E-Z Vinyl® Sealer aerosol sprays with good atomization and flow and provides a flexible, moisture resistant surface when applied under all MOHAWK aerosol clear topcoats, especially the pre-catalyzed aerosol lacquers.

Net Wt. 13 oz.

- 42-46 degree sheen, improved moisture resistance
- Non-Stearated formulation

INSTRUMENT LACQUERS

Guitar Lacquer Toner

Guitar Toner Aerosols are used to add controllable, even color to the guitar. Made from fade resistant dyes, they apply transparent color so the beauty of the wood shows through, yet they are strong enough that several coats will create the dark sunburst effect that is so popular on guitars. Starcast Amber applies the basic light tone colors of the guitar. Encore Brown is used to tone the body sides of acoustic guitars, which are typically darker than the soundboard. The Encore Brown is also used to create a sunburst effect around the edge of the body of a guitar, whether acoustic or solid bodied.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.
Applies to product(s) below.

- M113-1201 Encore Brown
- M113-1202 Starcast Amber
- M113-1203 Deep Red

Stringed Instrument Lacquer

Just as our Stringed instrument Lacquer in quarts, this aerosol is formulated specifically as a high quality finish for thin, flexible tone-woods such as those used on stringed instruments, made to withstand the expansion and contraction that is characteristic of the unique construction of stringed instruments.

INSTRUMENT LACQUERS

String Instrument Lacquer - Continued

Vinyl Sealer is also flexible by nature. Therefore, it is the only sealer that should be used under Stringed Instrument Lacquer. This combination yields great sound and empowers luthiers to finish their handiwork with confidence.

M113-1406 Net Wt. 13 oz.

SPECIALTY

Block-It™ Toner

Adjust color shades without having to strip and refinish. Block-It™ Toners will warm up or cool down the color of a finish. Use orange to warm up or neutralize green shade browns. Obtain browns by spraying Blue over Red. Blue or Green will cool down or neutralize a finish that is too red. Apply directly over existing finish. Net Wt. 13 oz.

⚠️ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M103-7001 Blue **M103-7003** Orange
M103-7002 Green **M103-7004** Transparent Orange

Shadow Toner

Easily add color to a repair or a finishing project by using Mohawk's Shadow Toner. The Shadow Toner is made with micro fine, non fading pigments and high quality lacquer. This aerosol will add color to your project without a muddy appearance. Apply Shadow Toner to your project to correct the color, add color or to help hide a repair. Adjustment of sheen is achieved with a clear topcoat lacquer. Net Wt. 13 oz.

- Superior flow out, subtle blending
- Good clarity, no overlap marks
- Fine atomization of color

AEROSOL FILLING SYSTEMS

Fill-One Aerosol Filling System

Fill-One is a single fill aerosol system that is designed to save time, money and effort.

- Uses a patented filling cap that eliminates clean up
- The unit is powered by compressed air
- The compact design makes it easy to install on a counter, moveable stand or wall

- Aerosolizes products in less than 5 seconds

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M984-7004 Fill-One Pre-Charged Aerosol Can - Standard Coatings

M984-7006 Fill-One Pre-Charged Aerosol Can - Stains & Glazes

M984-7007 Fill-One Pre-Charged Aerosol - Conversion Varnish

AEROSOL FILLING SYSTEMS

Fill-One Manual System

Enjoy the same benefits as our standard Fill-One but inject the stain or coating into a pre-charged aerosol can using a manual crank instead of a compressor. Filling takes seconds and you'll NEVER have to clean the machine.

High-quality aerosols offer real convenience that lends itself to time and cost-savings benefits for professional repairers.

- No cleaning after filling aerosol cans
- Seconds to fill with no loss of product
- Compact system - about the size of a coffee maker
- Stain or coating is permanently sealed into the cap, serving as a color indicator
- No compressor required - simple, hand crank operation
- Safe and surefire - no guessing about the number of strokes
- Includes mounting plate

Pro-Mark® Marker

The Pro-Mark® capillary marker features excellent flow. Whether you

need to touch-up 1 inch or 20 feet, the Pro-Mark® Marker does it the first time and everytime. The colors are the most fade resistant, the most resistant to color shift from topcoating and have the best bleed resistance. The nib offers superior flow along with the durability needed to do all normal repair work. Marks equally well with the edge, the bottom or the tip. Good adhesion to most surfaces and resistance to polishes are built into the Pro-Mark® Marker. *Custom color matching available.*

Background Marker Touch-Up

The Background Marker Touch-Up dispenses a thin, fast drying, low sheen film

to replace background color over fills, glue lines, dark areas in raw wood, and other stains. Indispensable for touch up on MDF, particleboard, and other very absorbent substrates, which go dark with other types of markers. Color band on markers to aid in identifying correct colors.

Artisan Glaze Marker

The new Artisan Glaze Marker is used to create glaze lines

on a glazed cabinet or furniture part. This Artisan Glaze marker can be used to add to or alter an existing glaze line. This new marker formulation allows you to apply the glaze line to the part and then work the line to blend in to the surrounding glaze effect.

This touch-up marker was designed to be the same strength as a light glaze, dry slowly, which enables you to work the color once it is applied to the part and build color over itself. You can add, alter or create a glaze line over a finish using this marker. This marker is designed to be used in the field, shop or factory settings.

- Quick and easy to use
- Can be used during or after your finishing process
- Can be used to create or touch-up existing glaze lines

Fillable Marker

Mohawk Fillable Markers are made of the same quality as our standard valve markers. The Fillable Marker will come with components to complete 6 markers. Included are 6 tubes, 6 valves with Acrylic Chisel Point Nibs (M290-1001), 6 Polyester Chisel / Bullet Point High Flow Nibs (M290-1003), 6 labels, and 6 agitator balls.

M269-0006

Ultra® Bond Waterborne Clear Finish Marker

Mohawk Ultra® Bond Waterborne Clear Finish Marker produces a durable, chemical resistant, water clear finish for use on flooring, cabinets, furniture and many other surfaces. Has excellent adhesion on most hard to adhere to finishes such as urethane, UV and aluminum oxide. Blends well into the surrounding area providing a nearly invisible repair. A truly multi-purpose topcoat for those small repairs and finishing needs. Low odor and fast drying.

Brush Tip Markers

Features a micro brush tip applicator. This revolutionary marker and tip allows you to apply color exactly where it is needed without any messy powders, fluids or odors. This is the perfect color tool for service technicians, shop technicians or factory line technicians. This is simply the easiest marker that you will ever use!

- Use to add grain lines or alter the color of a Fil-Stik® Putty Stick, Quick Fill® Burn-In Stick, PlaneStick® Burn-In Stick or E-Z Flow™ Burn-In Stick
- Add color to small sand thru areas on a face or edges of a wooden part
- Add or alter color in any small defect

Features

- Clear crisp colors that hold a thin line
- Low to no odor, easy to use, teach and learn
- Quick and easy application, no messy powders

TOUCH UP PENCILS

Graining Pencils

The graining pencil is an artist pencil with soft, thick cores to create a smooth color lay down for superior blending and shading. The pencils can be used to add color or grain lines over raw wood, finished wood, Mohawk Epoxy Sticks and Bondo® Wood Filler. The color of the pencils will not bleed or change when top coated. Recommended on production line touch-up stations since color can be replaced along moving line. Absence of liquid eliminates drying time.

M270-1400	Assortment (Includes all 14 colors)
M270-0901	Warm Grey
M270-0902	French Grey 70%
M270-0903	French Grey 90%
M270-0904	Sandbar Brown

Shading Pencils

Employed for antique distress markings and to simulate grain effects on spot repair work. Paper wrapped with string pull out making sharpening unnecessary. A protective coating should be sprayed over the area.

M271-0001	Black
M271-0005	Red Brown

BLEND-ITS

Blend-Its

A liquid filler and topcoat used to repair minor surface scratches, replace finish and to lock in other types of repair work. Adheres to most materials or finishes. Fast drying Blend-Its can be used on all finishes without fear of damaging the finish. Each jar comes with a brush attached to the cap for quick and easy application. 1/2 oz. jars.

PUTTY & FILLERS

Burn-In Balm™ Paste

Prevents unwanted spread of excess E-Z Flow™ Burn-In Stick or Plane Stick® Burn-In Sticks from adhering to the surrounding area as they are removed. Speeds production and minimizes sanding.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.
Applies to product(s) below.

M401-1203	4 oz.
M401-1206	Quart [∞]

[∞]Discontinued - Available while supplies last

E-Z Seal Pen

Prevents glossy look of burn-ins under low sheen topcoats. Good solvent hold out. Fast drying and easy to use.

M295-0001	
M264-1004	Replacement Nibs

Burn-In Sealer

A clear protective coating sprayed over a “Burn-In Stick” repair to eliminate “bright spots” (halo). When a gloss, satin or flat finish is applied over Burn-In Sealer, the repaired area will blend in with the sheen of the surrounding finish without glossing up.

Net Wt. 13 oz.

PUTTY & FILLERS

Hard Fill

Hard Fill is made from a blend of hard waxes and is used to repair minor and medium defects in wood and rigid plastic. Recommended for repairs on floors, tops, fronts, sides, doors, drawers, any wood surface.

- Easy to learn and use
- Excellent for dents
- Little to no sanding
- Good for all sheens
- Builds finish quickly
- Safe for any finish
- Works for any sheen

- M743-1595 Natural Alder
- M743-1200 12 Pack Assortment

Wood Filler

Mohawk Wood Filler is a water-based premium grade, solvent free filler that sets firmly to all wood surfaces. Mohawk Wood Filler offers minimal shrinkage and will not crack or fall out. Wood Filler accepts most stains, tints or finishes and all finishing operations; painting, staining, sanding, drilling, sawing and lacquers. Ideal for edge veneering and woodgrain filling.

- Quick drying
- Sands easily
- Minimal shrinkage
- Easy clean-up
- Indoor / outdoor use
- Freeze / thaw stable

- M741-0025 Alder / Cherry
- M741-0035 Natural Maple

Grain Filler & Solvent

For all types of open grain wood to fill and level the surface. Mohawk Grain Filler is a heavy paste high in solids for improved fill properties. Easy to apply and provides excellent adhesion for finish coats.

May be finished with lacquer, varnish, acrylic, or shellac finishes. Drying time is critical (see label). Adjust dry time by diluting with Mohawk Grain Filler Solvent.

PUTTY & FILLERS

Bondo® Wood Filler & Red Cream Hardener

Bondo® Wood Filler can handle any wood repair ranging from the smallest to the largest of projects; filling in minor furniture damage or rebuilding a missing piece of wood.

When the filler and hardener are mixed, a reaction occurs which allows the filler to chemically bond to the repair surface and allows the product to cure quickly and adhere permanently. For more advanced repairs, the filler can be applied in layers to rebuild rotted or missing pieces of wood. Bondo® Wood Filler is water resistant and will not shrink. You can make professional, great looking repairs.

- Professional strength two-part wood filler designed for interior and exterior use
 - Stainable and paintable
 - Non-shrinking and water resistant
 - Easy to sand in 15 minutes
 - Chemically bonds with surface for permanent solution

PUTTY & FILLERS

Knot Filler Cooling Iron

For pressing liquid Knot Filler into the knot and for quick cooling. The metal is aluminum and the handle is made from plastic.

M319-6004

Knot Filler Chisel

For cutting off excess Knot Filler. Beech handle with a blade made from steel. A sharp tool with good grip.

M319-6002

Knot Filler Saver

When you use Knot Filler it is sometimes necessary to change color, which means you need to empty the heating gun for Knot Filler. In order to minimize waste we have introduced the Knot Filler Saver that makes it possible to build new Knot Filler sticks of excess Knot Filler that otherwise would go to waste. The Knot Filler Saver is a tool that allows you to make new sticks, which you can save for use later. Make sure to seal the new sticks tightly in a bag, so they are not exposed to air.

M319-6030

Fil-O-Wood™ Wood Putty

Extra fine textured, water-base wood putty for holes, corner chips, cracks, screw holes and other defects. Will accept stain or finish in a manner similar to natural wood surrounding the defect. No strong solvents. Will not harm existing finish, can be sanded dry or wet. Once dry, Fil-O-Wood™ Wood Putty is shrink free, mar resistant, and has excellent adhesion. Recommended for both finishing and touch up repair systems where time is not of the essence or where hole is too large for filling with a Mohawk Burn-In Stick. Blendal® Powders can be intermixed with Fil-O-Wood™ Wood Putty to achieve additional shades. Can be sawed, drilled or carved.

Color Theory

BLENDAL® STICK – COLOR BLENDING

Matching colors for touch up requires a basic understanding of color theory. Normally, it will be necessary to blend 2 or 3 colors together to get an accurate color match. The normal wood panel has a color scheme consisting of a foreground, background, and grain color. The following is a list of intermediate wood tone colors; these are the primary colors of the wood industry:

- Cordovan - Violet Brown
- Burnt Umber - Red Brown
- Burnt Sienna - Orange Brown
- Raw Sienna - Yellow Brown
- Raw Umber - Green Brown
- True Brown - Neutral Brown

There are two basic techniques to replace color; color blending and color layering. When color blending simply draw several streaks of various colors (use colors matching background, foreground and grain colors) then lightly blend colors together to create a natural wood grain pattern. When color layering simply draw streaks of the background, smear color lightly then topcoat with a clear aerosol. Repeat this process with a foreground color and then a grain color each time duplicating the color and grain pattern.

Colors that appear opposite each other on the color wheel will neutralize each other and bring the resulting color to the middle of the wheel, which is a neutral brown.

Note: Colors directly across from each other are complementary colors and when blended together will develop a “brown tone”.

Black and White are used to darken or lighten colors and are not considered true colors.

Sand Thru Sticks

Sand Thru Sticks are used to add color to light edges or white edges due to sanding through a finish during the finishing process. This stick will not only add color but it can also fill in small imperfections on the edge. The Sand Thru Stick is very easy to use, simply rub the stick along the light edge to add color, blend the edge with a rag and then finish with your normal process.

- Hard wax square stick,
- Fill “small” defects in the edge
- Designed to be used off line or on line (hanging line)
- Quick and easy to use
- Can be used during or after your finishing process
- Must be top coated
- Custom colors available

LIQUID TOUCH-UP

Two Minute Touch-Up™ Brushing Liquid & Solvent

A brushing type clear liquid used with Blendal® Powder Stains for spot brush touch-up and coloring edges. Stays wet on the brush, dries in minutes on the repaired surface. A must in every finisher's kit for use in areas where the "padding" method is not practical. To lay the color flat without build up use with Two Minute Touch-Up™ Solvent. Available in quarts.

⚠️ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M440-0006	Brushing Liquid
M441-0006	Solvent

PADDING FINISHES

Finish-Up™ Polyurethane

LOW VOC 380 g/l

A user friendly wipe on finish. Finish-Up™ Polyurethane can be applied over repairs such as Burn-Ins, Fil-Stik® Putty Stick fills, Blendal® Powders and Touch Up Markers to seal in the repair, leaving a durable protective finish. Can be applied over properly cleaned existing finishes to improve appearance and durability. Finish-Up™ Polyurethane adheres well to most types of lacquers, vinyl clads, high pressure laminates as well as many other substrates. Best of all, it is water based and has almost no odor. This feature makes Finish-Up™ Polyurethane the product of choice where aerosols and other solvent based touch up finishes are not appropriate.

- Easy wipe on application
- Quick drying
- Good flow characteristics
- Good durability

Finish-Up™ Polyurethane - Continued

- Moisture & alcohol resistant
- Water clear
- Excellent adhesion
- Low VOC
- Will not lift other finishes
- Nonflammable

Graining Liquid

Balanced clear liquid formula for applying grain or base color in spot repair work. Unlike regular "padding agents", Graining Liquid stays wet on the brush longer. This feature allows the user more time to complete a repair. Mix with Blendal® Powder colors on any non-absorbent surface.

Apply grain with style 149 or 50 brush.

M403-0004	4 oz.
M403-0006	Quart

Wil Pro™ Padding Finish

The choice of the experts. One of our most popular French finishes. Super-fast dry. May be coated with lacquer immediately. Lowest build-up of any French finish on the market. The best finish for French polishing. Use with Blendal® Powder Stains. Excellent where clarity and minimum build-up are critical. Ready to use; no oil or additives are required. Very print resistant. Used for removing packing marks and mars on fine furniture. May be used on the very lightest of finishes with no discoloration. Formulated especially for the professional touch-up artist.

M405-2006	Quart
-----------	-------

PADDING FINISHES

Lac French™ Padding Finish Light Amber

The yardstick by which all other French padding finishes are measured. Used by thousands of repair technicians for many years. May be coated with lacquer immediately. Lac French™ Padding Finish is a very light amber color, suitable for use on the lightest of finishes. Ready to use. No oil or any other additives required. A formula perfected over the years for just the right build-up. Dries harder than any other french padding finishes on the market. Use with Blendal® Powder Stains. For best results, use trace cloth for application.

M405-2506 Quart

Rapid Pad® Padding Finish

Repairs packing marks or extensive scratches (where a whole surface needs repair) "French Polish" padding finish applied over an original finish for restoration, rejuvenation, protection and repair of surface finish defects. Formulated to flow freely while "padding" out an entire surface. Most recent formula improvements have increased durability, mar and blush resistance.

- RESTORATION - makes worn furniture look factory new again
- REJUVENATION - add new life to old finishes, antiques, etc.
- PROTECTION - new hard finish resists mar and abrasion
- FINISH DEFECTS - eliminates surface scratches and packing marks

M420-0006 Quart
M420-0007 Gallon

Lacover® Padding Finish

For spot refinishing. The most widely used "French Polish" padding finish in the world. Specially formulated for use with Mohawk Blendal® Powder Stains. Compatible with most known finishes. In one operation, the stain and finish can be replaced on worn or bare spots. Also recommended for leather and vinyl. "Highlight" effects can be created on wood, leather or vinyl materials with this method. Lacover® Padding Finish imparts new life to leather, prevents cracking and drying out. Available in two solids. The higher the solid, the less time consumed to build up the finish to complete the job.

Dye Concentrates

Mohawk Dyes Concentrates are a solution of metal-complex dyes in a special solvent that offer the finisher many options for application. The Mohawk Dye Concentrates are designed to be let down with water for an economical, nonflammable stain or with alcohol and/or acetone for a fast drying, non-grain raising stain.

They can also be used as a toner or "shader" by adding directly to water-based and most solvent based finishes to create a customized finish.

Not for exterior use. Note: This product contains VOCs in excess of 750g/l. Please consult local finishing regulations to ensure proper VOCs are maintained.

PIGMENT COLORED STAINS

Wiping Wood™ Stain

Semi-transparent, pigmented, solvent-based stain. Non-grain raising, fade resistant. Easy stir, soft-settling formula. Only 30 minutes drying time is needed before a lacquer sealer coat can be sprayed. Apply by spray, brush or cloth. Pigmented Wiping Stains are easier to control because there's less lapping. An ideal uniforming stain when applied over dye stains prior to sealing. A dark color tone is easily lightened with Wood Stain Reducer S-15. This stain will never bleed through the finish. Virtually any finish can be applied over Wiping Wood™ Stain: lacquer, shellac, varnish, polyurethane, acrylics and many others. *Custom color matching available.*

Wiping Stain Clear Base

Wiping Stain Clear Base has multiple uses:

- Use as a stain base to dilute the color of an MA240-series stain color without changing the way it works and dries or increasing the VOC's
- Use as a clear base and add colorants to make a custom stain color
- Use as a pre-stain conditioner to control stain color penetration and development

Wiping Stain Clear Base is:

- Short filled to allow user to add colorants to make custom colors
- EASY TO USE! Good open, working time.
- VOC compliant ANYWHERE IN THE COUNTRY for SHOP or ON SITE application!

Finisher's Glaze™ Glazing Stain

A truly professional glaze in an aerosol. No lid to open. No messy stir stick. No spills. No messy applicator. Just shake and spray. This is a medium viscosity glaze formulated in the spirit of our Finisher's Glaze™ Glazing Stain to yield great workability, and yet the solvent system is so coatings compatible that you can topcoat within just minutes. The high pigment load assures the opacity you need for great coverage. Use this glaze for quick and easy touch-ups, finishing applications, refinishing, and expedient application on carvings and into corners. Net Wt. 13 oz.

Break-A-Way™ Glaze

Mohawk's Break-A-Way™ Glaze is the perfect product to easily add heavy hang up and detail accent color to ornate fine woodworking or cabinetry. Break-A-Way™ Glaze is spray or foam brush applied over a sanded sealer or finish coat and then allowed to dry to a chalky, powdered state that is easily removed from unwanted areas using light pressure with a synthetic abrasive pad to the desired look that you are after. Break-A-Way™ Glaze must be topcoated with a clear finish of your choice. (Note: Allow to dry 1 hour after removing excess if topcoating with a waterborne finish.) Break-A-Way Glaze™ will help you create dramatic, clean accent lines on any shaped surface. Break-A-Way™ Glaze may also be intermixed to achieve custom colors. You may never want to wipe a glaze again after trying Break-A-Way™ Glaze.

- Spray applied (20 PSI)
- May be used under or over water borne finishes
- Superior hang and build compared to solvent glazes

STAIN BASES & COLORANTS

Radiant Stain Base

Mohawk's Radiant Stain Base allows for the addition of dyes and pigments to achieve custom colors like our M547 Radiant series of stains. The new formulation has special additives and solvent blends to keep the dyes in solution and minimize float, allowing for better color consistency. Radiant Stain Base may be tinted with Mohawk Xpert® Colorants and Mohawk Dye Concentrates and are short filled to accommodate up to 12 ounces of colorant per gallon. Max color load is up to 8 oz of M844 Xpert® Colorant, and 4 oz of M561 Dye Concentrate. This combination of pigments and dyes will allow most any color to be achieved in a rich vibrant tone.

M540-1027	116 oz.
M540-1028	580 oz.

Xpert® Stain Base

Mohawk Xpert® Stain Bases are available in two formulas, medium solids and high solids to meet your custom color mixing needs. Xpert® Stain Bases may be tinted with Mohawk Xpert® Colorants, M844 series, and can accommodate up to 12 ounces per gallon (3 ounces per quart) to achieve custom color. Custom color blends of the Xpert® Stain Base are suitable for all interior wooden surfaces and may be sealed or topcoated with all Mohawk Professional Finishing System® (PFS) products. Note: Bases are short filled to accommodate colorant.

⚠️ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

STAIN BASES & COLORANTS

Xpert® Stain Base - Continued

Medium Solids (for light to medium colors)

M540-1036 29 oz.

M540-1037 116 oz.

The following sizes are available as a custom item with a minimum order of 36 five gallon pails.

M540-1038 Medium Solids 580 oz.

M540-1058 High Solids 580 oz.

Xpert® Toner Base

Mohawk Xpert® Toner Base is a spray on and no wipe, low solid, vinyl tint base that is used with Mohawk Xpert® Colorants (M844's series) to create custom, semi-transparent pigmented toner colors. Toners are commonly used under a wiping stain or glaze to help establish an even background color by blending the natural variation of interior wooden surfaces to a uniform color. It may be used as a stand alone color that offers better hiding and more even tone than dye stains.

- Do not exceed more than 12 ounces per gallon of total colorant
- Perfect for blending multi-species of wood to a uniform color
- Can be used to create "no wipe" type stain colors

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M540-1077 116 oz.

Seal & Stain™ Pre-Stain/ Clear Stain Base

Use as a pre-stain treatment on wooden surfaces to reduce blotchy areas in soft woods before staining. Sand wooden surface with 150 or 180 grit sandpaper.

Apply by spray, brush or rag liberally over entire surface and remove excess by wiping with a cloth. Allow Seal & Stain™ Pre-Stain/Clear Stain Base to dry 15-30 minutes before applying any M545 stain color. Best results are achieved if the stain is applied within 12 hours. Use as a clear stain base with colorants to mix custom colors. Up to 20% by volume of Mohawk M500 or HUL 844 tint colorants may be added to Seal & Stain™ Pre-Stain/Clear Stain Base to create custom stain colors. Seal & Stain™ Pre-Stain/Clear Stain Base may also be added to any M545 wiping stain to reduce color intensity. *Note: Bases are short filled to accommodate colorant.*

STAIN BASES & COLORANTS

Base Concentrate

Pigmented Stain Colorant

A finely ground pigment in a high viscosity liquid form, free of fillers and extenders.

Recommended for making Pigmented Wiping Stains, Glazing Stains, Shading Lacquer and Tinting Lacquers. This pigmented colorant will mix with lacquer thinner, lacquer, glaze, lacquer sealers and synthetic finishes. Not recommended for water reducible, shellac or alcohol based coatings. *Custom color matching available.*

Recommended Reducing Proportions:

- Wiping Stains: 20% Colorant and 80% Reducer S-15
- Glazing Stains: 20% Colorant and 80% Clear Glazing Liquid
- Shading & Tinting Lacquers: 1 to 3 oz. color per gallon of lacquer

Instrument Sealer

The Instrument Sealer is designed to complement Mohawk Classic Instrument and Piano Lacquers. This a single component sealer, no catalyst needed. It is an excellent choice for sealing instruments like guitars, pianos or any project that will be top coated with a nitrocellulose finish. While it is primarily designed as a system to go under the Piano or Classic Instrument Lacquers it may be used as a top coat where a matte sheen is desired. Instrument Sealer can be coated with any Mohawk nitrocellulose topcoat.

Excellent build, flexibility and sanding qualities

- Conventional VOC, nitrocellulose base
- Suitable as a matte top coat
- 19% solids by weight
- Ready to spray viscosity
- Reduce with Lacquer Reducer 2255, M650-010

VersaLac® Post-Catalyzed Lacquer

VersaLac® is an easy to use, professional grade, high performance lacquer that is specifically formulated for high contact areas such as, kitchens and baths. VersaLac® is water clear, high solids, HAPS compliant and low VOC. VersaLac® is also easy to mix. One bottle of pre-measured catalyst is added to a 5 gallon pail having a 6-month catalyzed shelf life after the catalyst is added which is superior to the normal post-catalyzed products. VersaLac® produces a higher level of durability and near conversion varnish performance with all the benefits of a pre-catalyzed finish system. VersaLac® works great as a self-sealing system or with the E-Z Vinyl® and DuraCoat® Pre-Catalyzed Sealers. VersaLac® lacquers are supplied at a ready to spray viscosity. Solids: 30%.

Ultra® Clear Conversion Varnish (Post-Catalyzed)

Ultra® Clear Conversion Varnish provides the ultimate high-end professional interior finish performance and appearance. These products not only pass all of the KCMA Household Chemical tests, they exceed the requirements. Ultra® Clear Conversion Varnish is a post-catalyzed water white conversion varnish. When used with our Ultra® Clear Conversion Varnish Sealer or a self-sealed system, these topcoats produce a finish system of maximum durability, wear, and moisture resistance. They have good color retention properties and form a highly flexible film. A UV inhibitor is included to stabilize colors. These finishes can be sprayed with conventional, airless, HVLP, and air-assist airless equipment. Use Ultra® Clear Conversion Varnish wherever the ultimate in finish protection is desired, such as kitchen and bath cabinets, laboratory, dormitory, office furniture, and display fixtures. Low VOC. Must be catalyzed before use. Please see product directions for catalyzation rate. Ultra® Clear Conversion Varnishes are high solids-low viscosity formulas that enables users to achieve the best flow and build without reduction. Solids: 44%.

AristoThane

2K Polyurethane AristoThane is a 2 part urethane system that is isocyanate and formaldehyde free. This high solids coating is a 585 VOC g/l formula for spray application. This low odor coating builds fast, resists yellowing and is designed as a self-sealing system over unstained, natural surfaces. The system includes a separate, catalyzed, Isolator/Sealer coat that is used over stained or glazed surfaces before applying AristoThane topcoats. The Isolator/Sealer is also an ISO and formaldehyde free product.

Rockhard™ Table Top Urethane Varnish

Rockhard™ Table Top Urethane Varnish is the coating you need when you want a hard finish that will deliver maximum resistance to water, alcohol, food stains, chemicals, detergents, and other damaging liquids. This abrasion resistant finish is ideal for using on table tops as its name boldly proclaims. Its toughness also makes it suitable for a multitude of other uses like wooden chairs, benches, desks, dressers, chests of drawers, vanities, bookcases, and so many more. Sets free of dust in 4 hours. Use mineral spirits or paint thinner for clean-up. Quart.

DuraCoat® II Post-Catalyzed White Lacquer

Same performance and quality as our DuraCoat® Pre-Catalyzed White Lacquer in a 275 VOC formulation! DuraCoat® II Post-Catalyzed White Lacquers are premium quality professional finishes for furniture, cabinets and millwork, which are very user friendly. DuraCoat® features high solids, moisture and mar resistance, good flexibility and are more durable than regular nitrocellulose lacquers. When used as a self-seal system or over our E-Z Vinyl® White Sealers. DuraCoat® II produces an exceptional finish system that passes KCMA testing. DuraCoat® II is also easy to mix. One bottle of the appropriate, pre-measured DuraCoat® II Catalyst (M612-301) is added to a single gallon or a 5 gallon pail. DuraCoat® II has a 6 month shelf life after the catalyst is added. Solids: 31%.

SPECIALTY COATINGS

Exterior Door & Trim Varnish

A high solids exterior varnish recommended for the highest quality work. It is a copolymerization of several different resins and drying oils. It has outstanding gloss retention and durability. Mohawk Exterior Door and Trim Varnish contains an ultraviolet shield.

⚠ WARNING: Cancer Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M603-5007 Gallon

Tung Oil (Modified)

Mohawk Tung Oil (Modified) is a proprietary blend of non-break tung oil and propolymerized alkyd resin in a solvent system. Recognized as fast drying, hard, resistant to water, acid, alkali and mildew. One of the most durable of all natural oils. An ideal oil finish for new or stripped wood furniture. One coat achieves a low luster finish. Each additional coat increases gloss. Far superior to linseed oil, as finished wood will not darken with age. Tung Oil preserves the natural color of the wood. Surface scratches in a Tung Oil finish piece can be removed with steel wool and a small amount of Tung Oil. An occasional polishing with Mohawk's Lemon Oil Polish will preserve the beauty of the original finish.

⚠ WARNING: Cancer Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M701-1596 Quart
M701-1597 Gallon

Danish Oil

Produces a natural oil finish fast, easy. Just wipe on, let penetrate and wipe dry. Polymerized wood finish, combines penetrating oils with resins to produce a natural oil finish on unfinished wood. One application seals and finishes wood. Never gums up in warm temperatures. Will not print and is nongreasy. Water spots, stains, burns and scratches are easily removed by buffing with 4/0 steel wool and Danish Oil. Natural.

FLOW SOLVENTS & RETARDERS

Flash-Off™ Control Solvent

Flash-Off™ Control Solvent improves the flow of lacquers without substantially affecting the overall drying of the system. Only a few ounces of Flash-Off™ Control Solvent per gallon of lacquer are needed to eliminate over spray roughness in the finish.

- Improves system flow
- Eliminates over spray
- Does not extend dry time with recommended amounts

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M716-5007 Gallon

Retarder for Low VOC Coatings

Ideal for extending the flow out and open time of low VOC, solvent based coatings in high heat and humid environments. Retarder for Low VOC Coatings is a VOC exempt solvent that will not affect the total VOC content of a product.

M612-1047 Gallon

Available Architectural Finishing System - Replace M with MA.

No Blush™ Retarder

No Blush™ Retarder is a blend of slow evaporating solvents to be used with all Mohawk nitrocellulose, pre-catalyzed lacquer and post-catalyzed lacquer coatings. Small amounts may be added to correct most flow, blushing or leveling problems that are often seen during application in humid environments.

- Improves leveling
- Extends flash dry time
- Corrects common spray issue such as blushing, orange peel & overspray

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M716-2407 Gallon

Super Blush™ Retarder

Super Blush™ Retarder is a premium, very slow solvent for use where conditions of extreme high heat and humidity exist. This solvent used in small amounts will enhance the flow and leveling of all Mohawk nitrocellulose, pre-catalyzed lacquer and post-catalyzed lacquer coatings.

- Formulated for high heat and humid conditions
- Eliminate blushing
- Slowest retarding solvent available

M716-3407 Gallon

WASH & CLEAN UP SOLVENT

Clean-Up Solvent

Clean-Up Solvent is a reclaimed solvent that contains a high percentage of acetone. It is suitable for effectively cleaning spray guns, brushes and other finishing equipment. Due to the reclaimed nature of this product the solvent color and odor may vary slightly from batch to batch, which does not affect the product's performance.

- Effective equipment cleaning solvent
- <25 g/l VOC, economical cleaner

WATERBORNE SEALERS

Waterborne White Sealer

Waterborne White Sealer is a water reducible, ultra low VOC, tintable, high solids, ready to spray white sealer that has excellent build and filling characteristics. Waterborne White Sealer may be topcoated with Mohawk's Waterborne Pre-Catalyzed Clear Lacquer or Waterborne Conversion Varnish to achieve any desired sheen. It is the perfect beginning to create white finishes for cabinets, millwork and MDF. Solids 57%.

- Does not contain formaldehyde, lead or phthalates
- Exceptional build and hiding qualities
- Promotes adhesion with waterborne pre & post catalyzed finishes

⚠ WARNING: Cancer Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M640-1067 Gallon

WATERBORNE CLEAR FINISHES

Waterborne Pre-Catalyzed Lacquer

Mohawk's NEW Waterborne Pre-Catalyzed Lacquer is a freeze-thaw stable formula that is water reducible, self cross-linking, low VOC technology that has excellent color retention and is suitable for cabinet, millwork, furniture and other high traffic interior wooden surfaces. It passes all KCMA performance standards and can be used as a self sealing system. Formulated to meet production shop needs, it is an environmentally friendly alternative to comparable solvent base products. May be applied over any Mohawk stain. Allow oil type stains to dry a minimum of 1 hour for improved adhesion. Available in plastic containers, which resist rusting and improve shelf life. Solids: 35%.

- Water-clear product, will not change the color when applied over a color coat
- Improved flow and lay out on the surface due to having more open time
- Suitable for LEED® credits: EQ Credit 4.2 Low Emitting Materials - Paints & Coatings
- Contains no formaldehyde or isocyanate, low odor, water clean up
- Improved clarity, specifically with lower sheens

Waterborne Conversion Varnish

Mohawk's Waterborne Conversion Varnish is a freeze-thaw stable formula that is a water reducible, post catalyzed, low VOC emitting technology that has excellent color retention and is suitable for cabinet, millwork, furniture and other high traffic interior wooden surfaces. Waterborne Conversion Varnish delivers ultimate durability and mar resistance with as little as two coats and can be used as a self-sealing system. Waterborne Conversion Varnish is formulated to meet production shop needs and is an excellent environmentally friendly alternative to comparable solvent base post catalyzed products. Waterborne Conversion Varnish may be applied over any Mohawk stain or opaque colors. Allow oil type stains to dry a minimum of 1 hour for improved adhesion. Mohawk Waterborne Conversion Varnish is available in plastic single gallons which resist rusting and improve the product's shelf life. Solids: 36%.

WATERBORNE ADDITIVES

Waterborne Bubble Breaker

Mohawk Waterborne Bubble Breaker is an additive for the Waterborne Pre-Catalyzed Lacquer, Wood Tone Sealer, and Waterborne Conversion Varnish. Bubble Breaker will eliminate small bubbles that could appear on the finished surface when spraying at high temperatures and high humidity. Begin by adding Bubble Breaker at 1 ounce per gallon. Do not exceed 3 ounces per gallon. Electric drill mixing equipment is preferred. If electric equipment is not available, mix very well for at least 3-4 minutes.

If Bubble Breaker is not incorporated well, fisheyes may appear. If this happens, simply continue to mix the product with the Bubble Breaker addition aggressively for another 3-4 minutes.

- Zero VOC, water clean up
- Contains no lead or formaldehyde
- Use with any Mohawk waterborne sealer or topcoat

M647-1105 Pint

Available Architectural Finishing System - Replace M with MA.

MISCELLANEOUS

Wet Mil Gauge

For measuring wet film thickness of lacquers, enamels, paints and many other wet coatings that are sprayed, dipped or brushed on a smooth surface. Total dry film thickness of entire system should not exceed 4 dry mil including sealers.

M900-1040

RUBBING AGENTS

Pumice Stone

Produces a soft luster. Use to produce a smooth finish after applying the final coat of lacquer or Varnish. Rub the entire surface with 4F Pumice Stone and Rub-Cut™ Oil. A soft luster finish will be the final result.

⚠ WARNING: Cancer Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M720-1202 2F, 1lbs.

M720-1402 Fine 4F, 1lbs.

M720-1404 Extra Fine 4F, 5lbs.

Rotten Stone

Produces a hi-gloss finish. Extra fine powdered abrasive for achieving a mirror-like finish on various coatings. This material has extra fine cutting and smoothing properties. Excellent for high-gloss finishes. Applied with water or Rub Cut™ Oil. Often employed after a finish has been rubbed with Pumice Stone.

M720-1502 Net Wt. 1lbs.

M720-1500 Net Wt. 5 lbs.

Bril-Glow™ Mild Abrasive

Restores the new look to finished surfaces. Removes surface scratches. Restores the “new” look to coated surfaces which have become cloudy and lifeless. Applied as a polish and then buffed until the original true beauty of the finish is restored.

⚠ WARNING: Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M770-1006 Quart

Rub Cut™ Oil

Also known as Paraffin Oil. Designed as a rubbing agent for use with abrasive papers, Pumice Stone, etc. Rub Cut™ Oil speeds rubbing and leveling due to its formulation of fine chemical abrasives and cutting oils.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M740-1007 Gallon

Rubbing Compound

Level I (Low Sheen)

Semi-paste, fine abrasive compound for rubbing down lacquer, shellac and most other finishes. Removes minor surface imperfections and overspray on spot repairs. Use Neutral on white and light colored surfaces. Black is ideal for darker finishes. Use by hand or with buffer. Quart.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M730-1006 Neutral

M730-4006 Black

RUBBING AGENTS

Liquid Rubbing Compound (3-Step)

Level II (Medium to High Sheen)

STEP 1: Liquid Rubbing Compound

Used to remove overspray and wet sanding scratches on conventional and modern high tech finishes. Yields a high satin sheen. Use for hand or machine buffing.

STEP 2: Liquid Polishing Compound

Cleans and polishes while removing Step 1 Liquid Rubbing Compound scratches and swirl marks. Yields a medium gloss sheen. Use by hand or with machine buffers.

STEP 3: Liquid Finishing Compound

Removes swirl marks from Step 2 Liquid Polishing Compound and increases surface gloss. Leaves a "polished" look. Use by hand or with machine buffers.

ADHESIVES

Super Grip™ Resin Glue

Cream colored, liquid, dries colorless. A ready-to-use, heavy duty, aliphatic resin adhesive of outstanding strength. Solvent resistant, heat resistant and impact resistant. Unharmed by repeated freezing and thawing. Super Grip™ Glue will bond a wide variety of materials, such as leather, imitation leather, high pressure laminates, cloth and certain rubber products, to themselves or to other materials (one of the materials must be porous so that moisture can leave the glue line). Used in furniture factories and industrial woodworking plants for heavy joint work, lamination, edge gluing and general assembly. Not waterproof.

RUBBING AGENTS, ADHESIVES

ADHESIVES

Polyurethane Glue

Titebond® Polyurethane Glue is a breakthrough in adhesive technology. It is the only polyurethane glue to combine a long 20 minute working time with a short 45 minute clamp time. Offers superior wood-to-wood performance with excellent sandability and is unaffected by finishes. Ideal for metals, ceramics and most plastics. Ready to use.

M745-3105 Net Wt. 8 oz.

Loctite® Vinyl, Fabric & Plastic Adhesive

Loctite® Vinyl, Fabric & Plastic Flexible Adhesive is a clear liquid formulated for repairing and mending flexible plastics such as vinyl seats, cushions, tarps and outdoor gear. The adhesive is highly flexible to withstand bending and twisting. It dries to a transparent and waterproof bond. It will not yellow or go brittle with age.

- Bonds paper, glass, metal, ceramic, leather, wood, fabric rubber and some plastics
- Waterproof so it can be used for interior or exterior applications
- Dries clear for invisible repairs and eliminates unsightly tape or patches
- Remains flexible and will not brittle or yellow with age for long lasting repairs

M850-2035 1 oz.

Aerosol Activator

The Aerosol Activator has been formulated so it can be used successfully in just about any situation you can think of. For best results, apply sparingly at a distance of about 11 inches from the target. Net Wt. 10 oz.

- Cures Instant Adhesive on white wood dents in about ten seconds or less without causing undue chlorois.
- Does not adversely affect finishes when gluing broken pieces and splinters on finished wood. It does not soften the finish or leave a telltale shiny spot.
- Effective when applied to one piece of wood, the glue is applied to another piece, and then the pieces are joined. The Activator will not prematurely cure the adhesive before it bonds the parts.
- Does not leave an oily residue.

M107-0179

Plush™ Furniture Cleaner & Restorer

Cleans and maintains the original sheen of a finish. Helps to prevent printing and dries completely free of oily residue. Recommended as a general prep cleaner and preservative for all finished surfaces. Does not contain silicones.

⚠️ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M830-2004 8 oz
M830-2005 16 oz.
M830-2007 Gallon

SURFACE PREP

Quick Clean

A combination of solvents that removes unwanted foreign materials from most surfaces prior to applying a new finish or repair work of finished surfaces. Quick Clean is ideal for cabinets, furniture, appliances, woodwork, and other finished surfaces. Net Wt. 13 oz.

- Dries quickly, non-greasy formula, low odor
- Remove unwanted glaze during the glazing process
- Remove labels and glue from most surfaces
- Clean and prepare finished surfaces prior to applying an additional finish coat

⚠️ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M107-3012

Wax Wash™ Remover

Removes wax, oil and foreign materials from most surfaces in one application. Prior to applying a new finish or spot repair, clean surface with Wax Wash™ Remover. The presence of oil, wax or foreign materials on a surface can retard drying of a new finish which can be avoided by cleaning with Wax Wash™ Remover. Benzene, Naphtha or Alcohol by themselves will not remove all foreign matter as well as this product. Ideal to use on furniture, woodwork and appliances prior to refinishing.

⚠️ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M712-1906 Quart
M107-0190 Aerosol
M712-1907 Gallon

Silicone Wash

Excellent afterwash for removers. A wash which helps to remove silicone residue caused by polishes and waxes. Also minimizes fisheye problems from silicones. Mohawk Silicone Wash is an excellent afterwash for removers.

⚠️ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M712-3207 Gallon

Stripper Wash

The best product for removal of wax residue left by furniture strippers. Prepares the stripped surface for proper refinishing. Effective and easy to use.

M710-2007 Gallon

UPHOLSTERY CLEANERS

Vinyl/Plastic & Leather Cleaner

Easily cleans vinyl upholstery, rubber, enamel, ceramics and chrome appliances. Not only cleans but also provides a protective film for subsequent re-cleaning. Also recommended for vinyl auto tops and upholstery. Net Wt. 16 oz. **M107-0479**

Upholstery/Fabric Cleaner

Cleans grease, ink, crayon, red drinks, lipstick, cosmetics, iodine, blood, sunblock, shoe polish and much more. This product can be used to remove stains on washable textiles and carpeting. 32 oz. trigger spray.

- No Bleach

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M103-3001

Ink Remover

Removes ball point pen ink from vinyl upholstery, polyester, cotton and wool fabrics. Will not hurt materials. Just dab on and blot off with clean cloth when ink is dissolved. If finish is removed, use Mohawk's Clear Vinyl Spray Finish.

⚠ WARNING: Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M874-0001

Spot Cleaning Gun

Mohawk's Spot Cleaning Gun is of compact size and weight, which is so important with continuous daily use. It is made to fastidious specifications. This ultra-high quality airless electric gun pumps a spray of cleaning fluid powerful enough to quickly remove textile related stains such as grease, oil, make-up and screen printing inks. This gun will also remove flock lettering and transfers from any type of fabric, without leaving rings even on delicate silks and satins.

- Lightweight, easy to handle
- Virtually indestructible, maintenance free

M775-1000 Spot Cleaning Gun

Spot Remover

Mohawk Spot Remover is designed to easily remove oil and grease stains without harming delicate fibers. Spot Remover does not contain any chlorinated solvents. Spot Remover has a low odor, will not "ring" and dries quickly. Use on silk, satin, cotton, wool, taffeta, polyester, blends and all other fabrics. Net Wt. 10 oz.

- Spray on, let dry, brush off
- NOT designed for water and acid-based stains

M107-0505

WOOD FLOOR SYSTEM

Hydro Cleaner Wood Floor Cleaner

Hydro Cleaner Wood Floor Cleaner is a ready-to-use, environmentally friendly cleaner and wax remover for sealed laminate and hardwood floors. Hydro Cleaner should be applied by spraying a light mist of product over a 6 ft. x 6 ft. section (or smaller) of floor. After a short time, remove the product by working with a very light floor abrasive pad or a floor mop. For best results, rinse with clear water afterward. Heel marks and heavier dirt marks can be removed with a cloth soaked with Hydro Cleaner.

M730-30006 Quart

Hydro Care Wood Floor Protector

Hydro Care Wood Floor Protector is a water-based, environmentally friendly, wax maintenance product that can be used on all types of wood. Hydro Care should be applied in very thin coats and is intended to even up (refresh) the appearance in the traffic areas of the floor while providing a thin, soil resistant protective coating.

M730-30016 Quart

KCCP Disinfectant

KCCP is a sanitizer that been approved by the EPA to effectively kill human coronavirus. This product is registered for use as a sanitizer, fungicide, virucide, and deodorant for home, hospital, and industrial use. We are now able to sell this product through the Wood Finishes Group. This is a water-based product that is very safe to use and highly effective.

KCCP features and benefits:

- Safe to use on ALL surfaces
 - No wipe/rinse

| 40003 KCCP Disinfectant | Drum (55 Gallons) |
| 40005 KCCP Disinfectant | Pail (5 Gallons) |

MOHAWK Professional Leather System

Identifying different types of leather finishes and determining what touch-up and repair products are suited for each can be a difficult task. To make it easy, all Professional Leather System products are coded to help you choose the correct products. Below you'll find simple descriptions of different kinds of leather, and their corresponding Codes. All products on the following pages are coded to make it easy to match leathers with the appropriate products.

Aniline (also called Natural) (A)

The surface of this leather has been colored with transparent dyes. This transparency is similar to looking at a piece of stained wood, whereas the grain stays natural and visibly distinguishable. Aniline leather will have imperfections and differences, just as fingerprints are different for each individual. This difference is nature's signature and assurance that every hide is one of a kind. These leathers have minimal surface protection and thus tend to show the effects of usage such as wear, scratches, UV exposure, etc.

To maintain the natural beauty of aniline leather it is mandatory to establish a routine of cleaning and protection. Leather Protector should be applied right at the beginning of usage. Cleaning and protection should then be done every six months, even more often on high traffic areas.

Semi-Aniline (A)

This leather is covered with a lightly pigmented coating on which transparent and brilliant colors are oversprayed to reconstruct the natural appearance of the leather. Since the coating is thin, it offers only minimal protection, so an application of Leather Protector is recommended.

Pigmented or Top Coated (P)

This is the most widely used finishing technique. The finish consists of an opaque basecoat of pigmented resins followed by a protective topcoat. The natural color of the leather is completely covered. Therefore, pigmented leather can be identified by its uniform color. It is ideal for high use items like furniture or automotive seats, especially when you want your kids to use them "trouble-free". With the aid of Mohawk Professional Leather Care products, these leathers are easily maintained. If restoration is necessary, full re-coloring is possible

Pull Up (X)

Fashions come and go, but waxy and oiled leathers are here to stay. These two related types of leather are called "pull up," a phrase originally used to describe the effect on a type of leather also known as "Timberland" after that well-known footwear producer made this type of article famous. These leathers lighten when stretched, bent or "pulled up." They are categorized as natural because they do not have a thick topcoat.

Nubuck (N)

This leather is actually aniline leather that has been sanded to give it a fine, velvety surface. It should not be confused with suede, which is the flesh side of leather. The look and feel of nubuck leather is incomparable for low use applications where elegance is desired. To properly care for nubuck, it is important to adhere to a routine of cleaning followed by protection. This regimen should begin as soon as the piece is put into use and continued at regular intervals throughout the life of the piece. MOHAWK has specific products for the care and preservation of nubuck leather. It is important to use these specialized Nubuck products on Nubuck leathers.

Bycast (B)

This is a completely different system of finishing or enhancing leather (usually split leather or heavily buffed leather). It maintains a very consistent thickness and softness over the entire area of the leather, not only on any given hide but from hide to hide as well. The technique consists of creating the finishing film on a continual support of release paper. An adhesive is applied to the film, and then the film is pressed on the leather. The finished leather is then removed from the release paper displaying a perfectly uniform surface. Often, when stretching bycast leather, you can see a lighter color that reverts back to the original color once the pressure is released. This is sometimes used to identify bycast leathers.

LEATHER CARE

Leather Cleaner II

Mohawk's Leather Cleaner II is a mild water-based solution gently and effectively cleans leather surfaces from common household stains. It is pH balanced for leather and formulated for enhanced leather cleaning capabilities. Safe for all top coated and aniline type leathers. Not recommended for use on unfinished leathers like suede or nubuck.

M850-10024 8 oz.

Microfiber Cleaner

Microfiber Cleaner is a totally solvent-free cleaner for delicately and efficiently removing dirt and water-based or greasy stains from microfiber.

M850-10054 8 oz.

Leather Clean and Renew (A,B,P,X)

Leather Clean and Renew wipes safely clean and condition pigmented (top-coated) leathers. Use Leather Clean and Renew periodically to keep your leather clean, leaving a pleasant and renewed feel. Apply once a week for maximum efficiency. Comes in a handy dispenser.

M850-1019 40 Sheets

Nubuck Reviving Sponge (N)

Nubuck Reviving Sponge is a dry sponge for bringing back the typical velvet (writing) effect of nubuck and suede leathers.

M870-9202

Leather Protector (A,P)

Leather Protector is a highly advanced product designed to assist leather in repelling water, oil, and alcohol based stains. It is perfectly suited for natural grained leathers because it doesn't change the feel or the color of even these sensitive leathers while adding stain resistance. For topcoated leathers, the application of Leather Protector will ease the removal of difficult stains like ink, lipstick, mustard, newspaper print, and blue jean transfer. Leather Protector forms a transparent, breathable barrier that will improve stain resistance and efficiency of cleaning.

⚠ WARNING: Cancer Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M850-10064 8 oz.

Leather Protector Wipes

Quickly and easily apply an invisible barrier on leather surfaces and furniture to help repel oil, alcohol, protein and water based stains. Helps prevent skin oils and acids from damaging leather surfaces over time. Should be used in combination with Mohawk's Leather Cleaner.

M850-10069 40 Sheets [∞]

[∞]Discontinued - Available while supplies last

Leather Revive (A,B,P,X)

Leather Revive is a highly advanced product designed to revitalize Aniline, Bycast, Pigmented and Pull-Up leather that has become dried out, stiff or is squeaky. Leather Revive will renew and restore pull-up effect leathers and improve scratches caused by fingernail marks, scuffing, etc. Apply Leather Revive and when dry, apply Leather Protector to renew protection level.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M850-10074 8 oz.

LEATHER REPAIR

Ink Remover (P)

Ink Remover is a product specifically made to remove recent ink marks or lipstick stains from top coated leathers or vinyl surfaces. "Recent" is defined as 3-5 days. Permanent markers contain solvents to increase the penetration of the dye and will not likely be removed.

M850-2015 1 oz. Stick

Leather Degreaser (A,N,P)

Leather Degreaser effectively removes accumulated or saturated oil stains from leather. Over time, hair or skin oils can absorb into the leather and leave a stain. This often appears as a darkening effect in the contact areas. Leather Degreaser is formulated to penetrate into the leather, absorb the stain, and lift it into an easily manageable powder.

M850-2018 13.5 oz. [∞]

[∞]Discontinued - Available while supplies last

Scratch Remover (A,X)

Scratch Remover is a simple solution for healing and blending surface scratches or rubs on natural leathers. It helps restore the surface color as well as blend the damage. It is very effective on fingernail scratches in aniline leather. For some leathers, Mohawk Pull-Up Revive may provide the best solution. Scratch Remover is not intended for pigmented or nubuck leathers.

M850-2060 .50 oz.

LEATHER REPAIR

Deep Cleaner (P)

Deep Cleaner is a very strong cleaner for topcoated (pigmented) leathers. It performs a powerful cleaning action by removing all types of stains, including oily and greasy stains. It is very effective on newspaper, denim dye transfer, and dye transfers in general.

⚠️ WARNING: Cancer Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M850-20164 8 oz.°

°Discontinued - Available while supplies last

Repairing Paste (P)

Repairing Paste is a flexible adhesive that has enough body to fill as well as adhere damaged areas, particularly surface abrasions. It is especially effective where the leather has several small cuts that are raised like "scales." After drying, it is flexible and difficult to detect. For deep cuts, use Mohawk Leather Glue.

M850-2034 2 oz.

Leather Glue Water Based (A,B,P)

Leather Glue is a flexible, strong adhesive formulated specifically for repairing flaps, abrasions, and minor cuts. It can also be used to repair larger cuts in conjunction with the Woven Fiberglass Fabric. Refer to page 71 for the Woven Fiberglass Fabric.

M850-2033 .50 oz.

Leather Repair Glue

Leather Repair Glue is an adhesive for repairing flaps, abrasions and minor cuts. Add leather color or topcoat to assure the durability of repair.

M850-2038 .50 oz.

Mender (P)

Mender is used to repair scratches and abrasions on pigmented leathers from which the finish has been removed. Use a spatula to fill cracks and scratches with Mender. (Mender can be colored with a maximum 10% addition of Touch Up Pigment.)

M850-2037 2 oz.

E-Z Flow™ Leather Markers

E-Z Flow™ Leather Markers are water-based and offer breakthrough technology in the design of a new valve and applicator system. Just a couple of pushes on the valve, and the marker is ready to use. The sponge applicator flows effortlessly to spread color evenly every time, no matter how large

E-Z Flow™ Leather Markers - Continued

or small of a spot is being restored. The color lays flat, with no ridges between the rows, blending seamlessly with the surrounding area. The screw-on top provides an air-tight seal so the applicator stay wet and ready for your next repair.

Leather Repair Aerosol System

The Leather Repair Aerosol System contains aerosols used to color over damages on pigmented leather (also known as top coated) where there is color loss or the leather has been repaired. The aerosols are designed to enable you to match most of the leather furniture that is popular today. They are especially effective at repairing two-tone finishes which are otherwise so difficult to match. The system includes Basecoats for matching background colors, Toners to add color over the Basecoats and to apply the stippled effect in two-tones, Color Adjusters for fine-tuning the color of the repair, and Leather/Vinyl Finish™ to adjust the sheen. Want to see the system in action?

Go to <http://www.youtube.com/watch?v=1boQhuGBQes> to view a training video on YouTube.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M109-0024

Contents:

Leather Repair Basecoats - Coppertone, Light Tan, Warm Brown, Burnt Umber, Cool Brown, Burgundy, Black, White, Beige, Medium Brown, Red, Kinsey Dark Brown, Light Grey, Charcoal Grey,
Leather Repair Color Adjusters - Orange Brown, Red, Yellow, Blue, Green, White, Black
Leather Repair Toners - Warm Brown, Cool Van Dyke Brown, Black

Leather Repair Basecoat (P)

Leather Repair Basecoat aerosols are opaque, pigmented finishes that are formulated specifically for use on pigmented leather and vinyl. They are used to hide repairs such as cuts and scrapes where color is lost or the color has been adversely affected by the repair. They are also used to hide fillers like L/V Repair Heat Cure Compound and Mender. Basecoats are available in 18 colors that target the most popular leathers used on furniture today. Pick the color that is closest or slightly lighter and then use the other Leather Repair aerosols to complete the color match. Net Wt. 13 oz.

- For use on pigmented leather (also called top coated leather) and vinyl
- Not for use on aniline, pull up, nubuck, or suede leathers
- Used to begin the coloring process over damage
- Highly opaque for fast coverage
- Formulated for flexibility
- Creates a long-wearing finish
- Fade resistant, fast drying
- See usage at <http://www.youtube.com/watch?v=1boQhuGBQes>

Leather Repair Toner (P)

Leather Repair Toner aerosols are translucent finishes that are formulated specifically for use on pigmented leather and vinyl. They are used to bring the color of the Basecoat aerosols closer to the color of the leather or vinyl, similar to the way wood toners are used to blend wood colors. Most of the time, the toning process will darken the color of the Basecoats. Also, applying Leather Repair Toners in short bursts will create the stipple effect present in two-tone leathers. Net Wt. 13 oz.

- For use on pigmented leather (also called top coated leather) and vinyl
- Not for use on aniline, pull up, nubuck, or suede leathers
- Use to alter the tone and shade of the Basecoat aerosols (generally to darken) to bring the color closer to the leather or vinyl
- Translucent color
- Use to create stipple effect of two-tone leather
- Formulated for flexibility
- Creates a long-wearing finish
- Fade resistant, fast drying

Leather Repair Color Adjuster (P)

Leather Repair Color Adjuster aerosols apply transparent color to pigmented leather and vinyl. They are used to fine-tune the color of leather repairs on which Leather Repair Basecoat and Leather Repair Toner aerosols have already been applied. They can be used immediately after the Basecoat to bring the hue in closer accord to the color of the leather. They can also be used after the application of the Toners to make an adjustment. The principles of color theory should be observed in choosing which Color Repair Adjuster(s) should be applied. Clear Leather/Vinyl Finish™ aerosols are used at the end of a repair to adjust the sheen and offer greater protection. Net Wt. 13 oz.

- For use on pigmented leather (also called top coated leather) and vinyl
- Not for use on aniline, pull up, nubuck, or suede leathers
- Use to alter the hue of the Basecoat and Toner aerosols to adjust the color closer to the leather or vinyl
- Transparent color, formulated for flexibility
- Creates a long-wearing finish
- Fade resistant, fast drying
- See usage at <http://www.youtube.com/watch?v=1boQhuGBQes>

Vinyl/Plastic & Leather Cleaner

Easily cleans vinyl upholstery, rubber, enamel, ceramics and chrome appliances. Not only cleans but also provides a protective film for subsequent recleaning. Also recommended for vinyl auto tops and upholstery. Net Wt. 16 oz.

M107-0479

Touch Up Pigment

Touch Up Pigment is a single step product that combines fixation, adhesion, light filling properties, pigment, and topcoat all in one easy to use product. It exhibits high performance specs for dry rubbing, wet rubbing, and flexibility. It is the final step in covering repairs on pigmented leathers with color and/or sheen adjustment. Most often, it is used over a damaged area that has been repaired with Mohawk Leather Glue Water Based or Repairing Paste.

Grain Mold Compound & Catalyst (P)

Grain Mold Compound is blended with a specific amount of Catalyst, then spread over the grain surface which you desire to reproduce. The Catalyst cures the Grain Mold Compound to an exact duplicate of the grain surface in a few minutes. The mold is reusable indefinitely.

[△]WARNING: Cancer Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

- M870-6503 Grain Mold Compound 4 oz.
- M870-6001 Catalyst .5 oz.

PROFESSIONAL LEATHER SYSTEM

LEATHER REPAIR

L/V Repair Heat Cure Compound

Cured with Heat Iron, Heat Gun or Cordless Burn-in Knife to produce a permanent flexible bond with the surrounding leather or vinyl. Grain can be reproduced either with Grain Paper or Grain Mold Compound. When properly prepared and applied, repairs become invisible. The Compound Tool M870-9200 (page 91) can be used to apply the L/V Repair Heat Cure Compound.

⚠ WARNING: Cancer Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M872-6802 2 oz.

Atomizer

The Atomizer is a very inexpensive and easy to use tool for spray-applying Leather Spray Grain (M870-9400). It has 2 tubes positioned at 90 degree angle. One tube is the mouthpiece while the other is the dip tube. The user blows through the mouthpiece causing liquid to be pulled through the dip tube and atomized into a sprayed mist. It is fast and convenient to use because it doesn't have to be hooked to a compressor or an aerosol power pack. Atomizers are most popular for applying Leather Spray Grain, but some technicians also use it to apply Touch Up Pigment and Top Coat over their repairs.

M870-9350°

°Discontinued - Available while supplies last

Spray Grain

Spray Grain restores the grain pattern that is often lost during the repair process. It is a clear, high-viscosity liquid that is applied in large droplets to simulate the texture of leather or vinyl. It is quick drying and may be force dried for even faster repairs. Touch Up Pigment, Base Coat, or Top Coat is used over Spray Grain to complete the repair. Spray Grain is usually applied with a mouth atomizer but may be applied with an airbrush that is adjusted to spatter rather than spray a smooth coat.

M870-9400 4 oz.°

°Discontinued - Available while supplies last

Leather Grain Maker Set

Makes copying the leather grain quick and easy. The Grain Maker Set is a quick hardening, two-component product to create repair grains to press a grain structure into the repair area.

M870-6504

Leather Backing Fabric

Leather Backing Fabric is used to repair cracks and holes in leather. The fabric has an adhesive side that is activated by heat. 10" x 6"

M870-9455

LEATHER REFINISHING

Top Coat Gloss (P)

Top Coat Gloss is a ready to use, high sheen waterborne topcoat that is tough and scratch resistant. It displays excellent feel, rub resistance and adhesion. A mixture of Gloss and Matte will produce various degrees of sheen. Add FM Slip/Non-Slip Additives up to a maximum of 3% to achieve desired effect. Crosslinker MC may be added in an amount equal to 10% of the Top Coat mixture.

⚠ WARNING: Cancer Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M850-20334 8 oz.

Top Coat Matte (P)

Top Coat Matte is a ready to use, low sheen waterborne topcoat that is tough and scratch resistant. It displays excellent feel, rub resistance and adhesion. A mixture of Gloss and Matte will produce various degrees of sheen. Add FM Slip/Non-Slip Additives up to a maximum of 3% to achieve desired effect. Crosslinker MC may be added in an amount equal to 10% of the Top Coat mixture.

⚠ WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov. Applies to product(s) below.

M850-20344 8 oz.

FM Slip Additive (P)

FM Slip Additive is a feel modifier that imparts a silky and slightly wet feel to Top Coat and, in turn, to the leather. When added to Top Coat, it remarkably increases scuff and wet rub resistance.

M850-20394 8.5 oz. °

LEATHER CUSTOM

Spew Remover (A,B,P)

Occasionally, fat liquors used during the tanning process or natural animal fat can migrate to the surface leaving a white film. This film can be wiped away but will reappear. Spew Remover displaces the film and penetrates into the leather to prevent reoccurrence, because it has properties to lock the fats into the leather.

Leather Repair Aerosol System

The Leather Repair Aerosol System contains aerosols used to color over damages on pigmented leather (also known as top coated) where there is color loss or the leather has been repaired. The aerosols are designed to enable you to match most of the leather furniture that is popular today. They are especially effective at repairing two-tone finishes which are otherwise so difficult to match. The system includes Basecoats for matching background colors, Toners to add color over the Basecoats and to apply the stippled effect in two-tones, Color Adjusters for fine-tuning the color of the repair, and Leather/Vinyl Finish™ to adjust the sheen.

Express Kit Program - Touch-Up And Repair Kit

Mohawk’s “Touch Up And Repair Kit Program” makes it possible to design an individual Touch-Up and Repair Kit. You can order as few as 12 kits for your use or to provide to your customers to handle most minor touch-up requirements. Select from 23 different configurations. In addition to the products you select, each kit contains a Scotch Brite Pad, Plastic Leveler Card, and Tri-lingual instruction sheet. Each kit’s outer label can be personalized with three lines of text so you can show your company name, part number, color name, or any information you want to appear on the label.

M815 Small

M825 Large

ABRASIVES PADS

Micro Mesh

Very fine grade abrasive pads in 7 grades used for fine scratch removal. Capable of polishing a finished surface to a semi-gloss and even a high gloss surface. Commonly used on polyester or acrylic surfaces to achieve super-high gloss. 4 per pkg., 3" x 6".

M905-0241	2400 grit	M905-0601	6000 grit
M905-0321	3200 grit	M905-0801	8000 grit
M905-0361	3600 grit [Ⓢ]	M905-1201	12000 grit
M905-0401	4000 grit		

[Ⓢ]Discontinued - Available while supplies last

Steel Wool Pads

Flexible alternative to sanding. Perfect for curved and ornate woodwork. Suitable for use with most strippers and refinishers. Removes old finishes without harming original surfaces. Recommended for use with most stains, lacquers and protective finishes. For cleaning and removing rust from metal surfaces. Restores brass, copper and bronze. Disposable. Sold 16 per pack. Approximately 3½" wide.

M909-0301 [Ⓢ]	16 Pack, 00 Very Fine grit, metal finish

[Ⓢ]Discontinued - Available while supplies last

Steel Wool

Layer built. 5 lb roll. 4/0. Approximately 3½" wide. Length: 125 ft.

M909-0540

Non-Woven Hand Pads (Synthetic Pads)

Your best choice for general purpose cleaning and finishing a variety of surfaces. Fast cutting non-woven hand pads leave a more consistent finish than steel wool, wire brushes, and other non-woven hand pads. Can be used with water or solvents. Will not rust. Use as a final step when generating matte finishes on some solid surface countertops. 6" x 9" pads.

M909-7401	White, light duty cleansing pad, non-abrasive
M909-7412	Green, general purpose hand pad, very fine
M909-7415	Gray, ultra fine hand pad

ABRASIVES—SANDPAPERS

Lightweight Silicon Carbide Stearate Dry Sandpaper

B-weight Silicon Carbide paper, resin over glue bond, semi-open coat top-coated with Zinc Stearate dry lubricant. Suitable for sanding contoured surfaces or flat surfaces by hand, with sanding blocks, or on vibrating sanders. Ideal for sanding primer, paint, bare metal, and rust; or in woodworking, for sanding sealer, wash coats, bare softwoods and hardwoods, and between coats of furniture finishes. 9" x 11" sheets. 100 sheets per pack.

M906-1000	P150B grit	M906-1008	P280B grit
M906-1002	P180B grit	M906-1010	P320B grit
M906-1004	P220B grit	M906-1012	P400B grit

Garnet PS 10

Premium Garnet material use in hand, fine finish type sanding, or sanding undercoats of finishing materials. Offers a "softer" cut that leaves a smoother surface. 9" x 11" sheets. 25 sheets per pack.

M906-1300	P80D grit	M906-1304	P120C grit
M906-1302	P100C grit	M906-1306	P150A grit

Silicon Carbide Waterproof Sandpaper

Waterproof Silicon Carbide, A-weight paper, resin-resin bonded and available in 7 grits. Use for sanding of furniture finishes such as varnish, lacquer, shellac, oil, polishing of glass, and in automotive body shops for final color sanding of paint. 9" x 11" sheets. 25 sheets per pack.

M906-1100	P220A grit	M906-1108	P1200A grit
M906-1102	P400A grit	M906-1110	P1500A grit
M906-1104	P800A grit	M906-1112	P2000A grit
M906-1106	P1000A grit		

Open Coat Aluminum Oxide Sandpaper

Aluminum Oxide A, C & D-weight paper material. An extremely tough and durable synthetic abrasive. For sanding wood, metal, plastic, fiberglass and painted surfaces. Produces a soft, consistent finish at a budget price. 9" x 11" sheets. 25 sheets per pack.

M906-1200	P80D grit	M906-1206	P150C grit
M906-1202	P100C grit	M906-1208	P180A grit
M906-1204	P120C grit		

ABRASIVES—SANDPAPERS

Sanding Block

Hard rubber, cork and felt blocks, for sanding.

BED HARDWARE

Bed Hooks

Bed Hooks will convert your present bed headboard into a Hollywood bed in a few minutes without drilling holes in the headboard legs. Slip into the slit of the headboard legs in place of the former bed rails. Simply attach metal bed carriage to Bed Hooks with bolts provided. Nickel anodized finish.

- M933-0060** 1 pair

Adapter Plates

Adapter Plates enable your customers to convert old beds to modern mobile Hollywood beds. Takes care of the difference between the width of the customers headboard and the spring and mattress. Made of heavy gauge steel. Offers more than the usual amount of vertical height adjustment by having two sets of slots for connection with any metal bed frame. Nickel anodized finish.

- M933-0061** 1 pair

Bed Rail Tighteners

Made of corrugated steel. Slip over end of bed rail hook; will take up all slack between bed rails and bed post. Also prevents squeaks.

- M933-0100** Package of 12

Bed Hook

For floating headboard off the floor. Hooks in-and-under standard pins in headboard. Easy installation in a few seconds with no measuring or drilling. No bolts showing to mar walls. 12 horizontal slots for desired height off floor, and side to side adjustments. One piece heavy gauge steel. Each pair conveniently packed with instructions and necessary hardware. For QUEEN SIZE BEDDING (60"). Can be used with FULL SIZE HEADBOARD: simply switch right bed hook to left leg and left bed hook to right leg.

- M961-0070** 1 pair
Discontinued - Available while supplies last

HAMMERS & MALLETS

Tack Hammer

Magnetized tip, fully polished 3-3/4" square head. Hickory hardwood handle. 5 oz. head weight. 10" total length.

M951-0417

28 oz. Mallet

Heavy white rubber mallet with non-mar surface. Superior quality, limited bounce. White hardwood handle. 2-1/2" diameter face, 4-1/2" diameter head. 14" long handle.

M957-1975

24 oz. Mallet

Rubber mallet can be used without fear of marring metal parts. Limited bounce. Solid dense black rubber head with white hardwood handle. 2-1/2" face, 4-1/2" head, 14" long handle.

M957-1976

HEAT GUNS & BURN-IN TOOLS

Micro Therm™ Flameless Heat Gun

The Micro Therm™ Flameless Heat Gun is a hand held self-igniting flameless heat gun and is powered by a refillable fuel cell. The Micro Therm™ is the perfect heat source for the Quick Fill® Burn-In Stick.

- Hand held, automatic electronic ignition
- Patented safety lock
- Produces 1300°F flameless heat
- Refillable fuel cell-disposable butane lighter
- Compact ergonomic design, butane not included

M900-3215

M110-9005 Butane Refill

Small Heat Iron

The Small Heat Iron with round flat head and heat tube:

- Improved 100% Iron tip
- Enables technicians to apply hot air to the repair area by blowing gently through the plastic tube
- A circular pad is mounted on the iron for direct heating of graining paper or grain mold
- Takes little space in a repair kit for service calls, yet can be used with Heat Cure Compound for graining and curing techniques
- Very economical

M870-5710 Heat Iron, Small w/Round Flat Head & Heat Tube

Large Heat Iron

Excellent for repairing long rips and tears in vinyl fabrics and vinyl upholstery. Even 15" long repairs can be made with this iron. Accurately balanced. Durable. Built in heat control thermostat. Includes a 5-1/2' (1.7 m) AC cord and metal stand to protect your work area while the tool is at rest. 165 Watts.

M870-5755 Large Heat Iron

Heat Gun w/Tip

Furnished with a specially designed tip which fits over the nozzle of the gun to focus heat flow to a 1/4" diameter. Use to cure Mohawk's Vinyl Repair Compound. Excellent tool to re-flow a repair for re-graining. New higher watt element cures compound faster. Use to repair small cuts, tears, punctures, abrasions and splits. 475 watts.

MASKING TAPE

Painter's Mate Green Masking Tape

Premium Grade. Designed for use on all paints and many lacquer and varnish coatings. This tape is recognized by and known for its quality performance and it's green color. It leaves clean, straight paint lines with less edge bleed. Does not lift, curl or transfer adhesive with most lacquers. This tape can also be used on rough, uneven or hard to stick surfaces. *(DO NOT USE on easily damaged surfaces, such as: wallpaper, wallboard, ceiling tile, uncured coatings or other delicate surfaces).*

M910-2001 Width: .945" x 60 yd; 24mm x 55m

Masking Tape Release (Blue Painters Tape)

Acrylic adhesive allows clean, easy removal up to 14 days without damage from painted walls, trim, woodwork, glass and metal even when exposed to direct or indirect sunlight. Backing saturant provides solvent and moisture resistance which reduces paint bleed-through and rework time.

M910-2002 .945" x 60 yd 24mm x 55 m
M910-2003 1.89" x 60 yd 48mm x 55 m
M910-2005 .709" x 60 yd 18mm x 55 m

MIRROR SUPPORTS

Mirror Supports

Our Mirror Supports are the highest quality on the market. Being 100% American made they have the following benefits:

- Stronger than any other fastening device for mirrors on the market
- Made of 18 gauge steel, which is 37% stronger than the 20 gauge imports
- Will not bend or twist under heavy mirror weights ensuring durability and safety

Mirror supports allow for desired adjustment up or down. Screws are included for mounting. No brackets necessary. 12 per pack.

M999-1014 4' unassembled
M999-1015 5' unassembled

MISCELLANEOUS

Compound Tool

Used to push the backing fabric into and under damage. Also used to apply clear L/V Repair Compound over the backing fabric in the damaged area.

M870-9200

Match-All™ Tinting Glass

M900-4602

Match-All™ Tinting Loop

Used to dip into the Match-All™ staining liquid to disperse droplets of color onto mixing glass. Allows user to control drops to achieve specific color.

M900-4601

Staple Remover

#120-1/2 Use to remove staples and tacks. Durable. Easy to use. Greater angle facilitates lifting rather than knocking out of staples.

M941-0121

Gripper Tack Puller

Manufactured with alloy steel for strength. Precision ground and sharpened. Heat treated for durability.

M951-0418 7" length, 7/16" point size

Paint Strainer

Filters foreign matter or undissolved solid particles found in various stains or coatings (paint, varnish, lacquer or enamels).
226 Micron Synthetic Filter.

M972-1001 Pack of 12
M972-1002 Pack of 250

MISCELLANEOUS

Mohawk Leveler Card

Leveler Card can be use with Quick Fill® Burn-In Sticks to level burn in or to scrape excess burn in.

H898-0002

Wet Mil Gauge

For measuring wet film thickness of lacquers, enamels, paints and many other wet coatings that are sprayed, dipped or brushed on a smooth surface.

M900-1040

18" Stir Whip Mixer

Revolutionary design allows the user to quickly mix or stir any material; liquids, paints, glues, epoxies, compounds and concrete.

- Designed to use in large containers
- Flexible fingers fit through a 2" opening without trimming
- Easy cleaning

If using with lacquers or other flammable liquids use pneumatic air drill. Sparks from electric drill motor could ignite flames.

M972-1010

Grain Filler Spreader & Leveler

This combination tool is 6" in length with a single curve profile and square corners. It is a double edged tool that is designed to quickly and easily apply grain fillers. The comfortable profile allows easy use of each edge, the flexibility allows for maximum conformity. Use the rigid edge for heavy applications and the flexible, thin rubber based edge for lighter applications. It also greatly aids in the removal of excess filler, thus reducing sanding time. This tool features low memory and low glide.

M902-3010

PACKING / SHIPPING / DELIVERY

Stretch Film

Replaces storage boxes, tape and twine. Wraps skin-tight. No adhesive residue. Protects against tarnish, rust, weather, insects, rodents, and scratches. Use for moving, shipping, and storage.

M910-2006 5" x 1000'

Tie Down Straps

Versatile, extremely durable and rugged with a breaking strength of 1100 lbs. Ties easily and can be used on any moving job. 50 foot rolls.

M939-0100 2" width, Cotton
M939-0625 1" width, Polyester

Van Pads

Made with cotton batting that is thicker, more durable, and more resilient than any other budget moving blanket. Constructed of non-woven fabric with 3" cotton binding on all 4 sides and 4 finished corners. Black/Gray, 72" x 80" size.

M995-1101 Econo Deluxe

For the most protection these moving blankets have the thickest, heaviest cotton pad batting to provide care to your furniture. These moving blankets have 3" non woven binding on all 4 sides with 4 finished corners. Two-Tone (Blue/Blue), 72"x80" size.

M995-1103 Mega Mover

PICTURE HANGERS / WIRE

Picture Wire

Durable, tinned flexible braided cord wire for hanging mirrors, picture, etc.

M930-1005[°] #5, 24 strand, 750 feet/roll, up to 31lbs. max picture weight
M930-1008 #8, 36 strand, 500 feet/roll, up to 45 lbs max picture weight

*Note: We recommend using picture wire at least four times the breaking strength of the weight of the picture.
°Discontinued - Available while supplies last*

Adjustable Hanger

Used for hanging and leveling all types of mirrors and pictures. Adjustable to 1/100". Can be adjusted with a screwdriver after installation. Wireless Hanger is nailed to the wall. Maximum capacity 40 pounds each. 1 pair per card.

M968-3010

Picture Hangers

Swivel type mirror hanger. Zinc finish.

M969-2501 50 pieces per box[°]

Wood Touch-Up & Repair Workshop - 2 Day

Learn cutting edge techniques from the pros! Spend two days with Mohawk's experienced instructors and learn the most up-to-date touch-up and repair techniques.

Curriculum

Here's what you'll learn:

- Repair of dents, gouges, deep scratches, burn marks, broken corners, edges
- Use of sandpaper and compounds to remove scratches, raise and lower sheen, bring a dull finish to life
- Proper use of wax filler sticks, burn-in sticks, epoxy fillers, adhesives, padding finishes
- Color matching principles - Primary and secondary colors, effects of white and black colors, color intensity levels, earthtone colors
- Furniture repair application techniques: low odor water-based touch-up coatings, using aerosols, using markers, proper brushing techniques

Additional Course Information

- Class Hours: 8:00 AM - 5:00 PM
- Students are responsible for their own hotel accommodations and meals. Contact the hotel directly for reservations.
- Students may cancel or reschedule 7 business days in advance with no charge. Changes made less than three days in advance will incur a \$50 fee. No shows will be charged the full cost of the workshop.

Savings!!

- 5% Discount on products ordered during the workshop.
- 15% Discount on instructor's products used during the workshop.
- Ask your Rep for details.

Scan here to view all the details about the Wood Touch-up & Repair Workshop.

WORKSHOP INFORMATION

Leather Care, Touch-Up & Repair Workshop - 2 Day

Mohawk's Leather Maintenance, Touch-Up & Repair Course will train you to use our Professional Leather System - the most complete line of touch-up and repair products for leather. Our course teaches cutting edge techniques to care for, revive and repair worn and damaged leather.

Curriculum

Here's what you'll learn:

- Leather identification
- Scratches, cuts, re-coloring, scuffs, burns, holes, cracks, and abrasions
- Color theory using the color wheel
- Color mixing and application

Additional Course Information:

- Class Hours: 8:00 AM - 5:00 PM
- Students are responsible for their own hotel accommodations and meals. Contact the hotel directly for reservations.
- Students may cancel or reschedule 7 business days in advance with no charge. Changes made less than three days in advance will incur a \$50 fee. No shows will be charged the full cost of the workshop.

Savings!!

Your Total Solution — Serving the Industry Since 1948

The finish is the first thing seen ...
Make a Lasting Impression

Our comprehensive line of touch-up and repair products provide everything you need to achieve professional results. Touch-up markers, fillers, aerosol topcoats and toners, along with our patent pending color matching process using Mohawk's Blendal® Sticks, allows you to repair all types of damages and defects in finished and unfinished woods.

Mohawk's high performance coatings are formulated to meet the needs of kitchen cabinet, architectural millwork and custom finishing shops. Mohawk products are easy to use and VOC compliant.

We not only give you great looks, but we also provide technical expertise, local sales and service and an outstanding hands-on training program.

**Superior Products + Superior Training
Achieve invisible repairs with Mohawk**

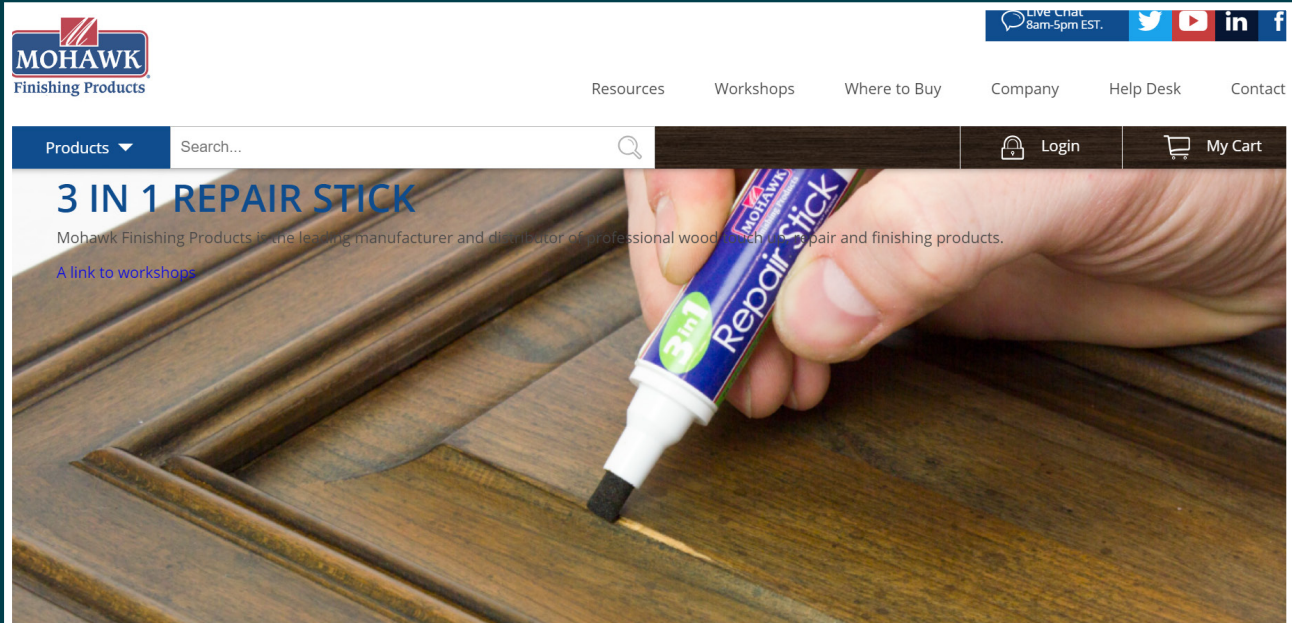

Proud Members of

100% Satisfaction Guarantee

If you are not 100% satisfied with your purchase of Mohawk stock Touch-Up Products, simply let us know within 30 days of your purchase and we will arrange for an exchange of your item or credit to your account. We'll do whatever it takes to make it right!
