New Products

Fillable Marker - M269-0006

Mohawk Fillable Markers are made of the same quality as our standard valve markers. The Fillable Marker will come with components to complete 6 markers. Included are 6 tubes, 6 valves with Acrylic Chisel Point Nibs (M290-1001), 6 Polyester Chisel / Bullet Point High Flow Nibs (M290-1003), 6 labels, and 6 agitator balls.

DuraCoat® High Solids Pre-Cat White Sealer - M610-9008

The Mohawk DuraCoat® Hi-Solids Pre-Catalyzed White Sealer is an excellent choice for sealing cabinets, millwork and MDF. It is a high solids, 550 g/l VOC, pre-catalyzed, white sealer that must be reduced before use. To remain 550 VOC compliant, reduce with Acetone (M650-001) or use Lacquer Reducer 2255 (M650-010) if used in an area that can apply conventional VOC products. Apply Mohawk's DuraCoat® Pre-Catalyzed White Lacquer (M610-600 series) or any Mohawk Conversion Varnish over it after sanding.

New Assortments for the Flooring Industry
