## Product Data Sheet

### Spray Grain

M870-9400

4 fl. Oz. bottle

-----

**Product Description:** Spray Grain is a clear liquid (water-borne) that is purposely applied in large droplets and will keep that texture as it dries. These multiple droplets simulate the texture of the leather. Sometimes this texture blends in well as-is, but sometimes a light sanding to flatten the peaks is in order. Once dry, Touch Up Pigment, Base Coat or Topcoat is used over the Spray Grain to complete the repair. Leather Spray Grain can be force-dried without losing any of its properties.

-----

### **Characteristics:**

Physical state: Liquid

Dry time: 15-20 minutes

Package life: Maximum 1 year from date of manufacture, should be kept in original package.

Storage: Protect from freezing. Store above 40° F.

### HMIS:

Health: 1

Flammability: 1

Reactivity: 0

Personal Protection: B

### **Specifications:**

Leather type usage: Pigmented leather, vinyl

**Directions:** Use a mouth atomizer (M870-9350) to apply a light spattered texture to simulate leather grain on damaged areas or to hide grain bands. Diluting with water will decrease the bumpiness of the texture (finer grain). Adjusting the distance from the leather or vinyl will alter the pattern. Increasing or decreasing pressure will alter the

pattern. Spray Grain may be applied before or after color application, however if it is applied after color it should be topcoated with clear for protection. Allow to dry (may force dry) before coating.

**Safety cautions:**

Contents: 1 methyl-2-pyrrolidone, n-diethylethanamine

Warning! Combustible liquid and vapor. Vapor harmful. Causes eye, skin, nose and throat irritation. May be harmful if absorbed through skin. Harmful if swallowed. See Material Safety Data Sheet (MSDS) for complete information and First Aid.

**Warning:** This product contains a chemical known to the state of California to cause birth defects or other reproductive harm.

**MSDS:** If Material Safety Data Sheet is required, contact:
